

NATIONAL CONSTITUTION CENTER

AMERICA'S *Founding*

In celebration of America's 250th, this dynamic, interactive gallery explores how the founding generation defined and debated the principles of liberty, equality, and government by consent.

The *America's Founding* experience unfolds across five thematic sections: Declaring Independence, The American Revolution, Creating the U.S. Constitution, Ratifying the Constitution, and Drafting the Bill of Rights.

The gallery takes groups on a journey from the colonies' growing tensions with Great Britain through the drafting, ratification, and adoption of the Constitution and Bill of Rights.

Your group will step into history as they enter a Continental Army encampment during the American Revolution and walk the streets of Philadelphia in 1787 to experience the debates and decisions of the Constitutional Convention.

NOTABLE ARTIFACTS

- A rare first official printing of the Constitution (1787)
Loan made possible by Kenneth C. Griffin and Griffin Catalyst
