Civics Education A Pathway to a More Perfect Union

A Conversation on the State of Civics Education in PA

September 9, 2021 | 3:30-5:00pm

Moderator: Honorable Marjorie O. Rendell, Judge United States Court of Appeals

Join Colleagues from across Pennsylvania as we explore Civics Education in the Commonwealth…Past, Present and Future.

Learn about ongoing priorities, initiatives, and innovations and how to incorporate them in the classroom and beyond as we approach Constitution Day 2021.

Your Voice Matters as we participate in breakout groups to discuss:

- What can you do to promote and improve civic education beyond the walls of your school?
- In what ways is your school preparing students for citizenship? What improvements can be made?
- How has Act 35 impacted civic education in your school? What additional steps could be taken to support civic education?
- How do you or how will you advocate for civics education?
- How can we create pathways to equitable civics education for all students?
- What can you do for Constitution Day- in your classroom, in your school in your community?
- What will you, your organization or group do to facilitate civic education in your community?

Panelists:

Mr. Christian Wrabley
Social Studies Teacher Greater Johnstown High School
