

CONSENT OF THE GOVERNED

by Dr. Gordon Wood

Directions: James Wilson stated that all government authority came from the people, and by extension their consent. This relationship requires a balance of responsibilities from both sides — the government and the governed. List these responsibilities below. Then, design a slogan or a hashtag that concisely and effectively describes the relationship that the Declaration established between the government and its people.

| Responsibilities of the governed | Responsibilities of the government |
